WORK EXPERIENCE

Coding Raja Technologies

Web developer intern (Remote)　　　　　　　　　　　　　　　　Dec 2023 - Jan 2024

- Developed two projects during online internship Resume Builder and a Web music player which helps me to better understand and apply my knowledge of HTML, CSS and JAVASCRIPT.

EDUCATION

Visvesvaraya Technological University

MCA - 9.0 CGPA　　　　　　　　　　　　　　　　　　　　　　　　2022 - 2024

PROJECT

Bloogyy App 🔗

- Developed a dynamic blog platform using **React.js** for frontend interactivity and **Node.js with Express** for backend logic.
- Implemented **MongoDB** for efficient and scalable data storage.
- Integrated **Firebase** for secure user authentication and real-time updates, ensuring a responsive user experience.
- Enabled community engagement through interactive features like **commenting** and **upvoting-**, fostering vibrant user interaction.

Community Care Web App 🔗

- Developed a **Flutter** app with **Firebase** allowing users to report local issues to municipal corporations.
- Designed user-friendly interfaces for citizens and municipal staff for efficient issue tracking and communication.
- Implemented real-time updates, enhancing transparency and responsiveness in issue management.

Gift_of_Hope 🔗

- Developed a donation app using **Flutter**, **Dart**, and **Firebase** with **Razorpay API** for seamless payment integration.
- Enabled real-time data management, secure user authentication, and smooth donation transactions.
- Designed a user-friendly interface to ensure an efficient donation experience.
